Sets With Carry Cases

SI-6101

7" Forceps Set of 3 Set Includes: Three different 7" fine quality forceps with knurled grip highly recommended for removal, extraction of wolf tooth and incisor caps.

Sets With Carry Cases

SI-6102

Long Head Dental Pick Set of 3 Multifunctional picks are useful for elevating tissues around molar teeth. Helpful in lifting caps and removal of food between teeth. Manufactured from premium stainless steel and neoprene handles for slide free grip.

Sets With Carry Cases

SI-6103

Dental Pick Set of 2 Short Head Lingual and buccal use for when elevating tissues around molar teeth, usually prior to extraction. Manufactured from high quality stainless steel. Pick length with handle is 46cm, enabling work on all teeth in the horse's mouth. Length of the point is 3.5cm. Useful for elevating caps. Has a neoprene handle for added grip even when wet. For anterior and posterior use when elevating tissues around molar teeth, usually prior to extraction. Useful for elevating caps. Manufactured from high quality stainless steel. Length of pick, including handle is 46cm enabling work right at the back of the horse's mouth. Length of the point is 3.5cm. Useful for elevating caps. Has a neop.

Cow Puller

Calf Puller 45"

SI-3801

(Neogen) Popular, dependable calf puller has stood the test of time. The cam jack moves easily on smooth shaft. Tension is released with the press of a lever. Has wide cast aluminum breechen, and two section shaft that can be disassembled for easy storage. 45" OB chain included.

Ratch-a-Pull Dual Action

SI-3802

New, improved model double action puller. Refined milled grooves on shaft with no sharp edges. Wide cast aluminum breech spanner and longer solid shaft for those big calves. Puller disassembles for storage. Heavy-duty construction throughout. Order OB chains separately.

Calf EZE Dual Action Puller

SI-3803

(Neogen) Features same rugged construction as Dr. Franks, but with 2 pulling points that alternately advance to shift the pull from one leg to the other to "ease" the calf out. Two-piece cam jack has special easy release feature. Two-piece smooth shaft and wide cast aluminum breechen. Lightweight special strength aluminum construction makes it easy to handle.

OB Handle

SI-3804

Hook, nickel finish, is designed to grasp chain firmly at any length.

OB T-Bar Handle

SI-3805

Easy grip two-handed pull design provides extra leverage. Hook will not spring or let chain slip.

Wire Saw

SI-3806

Abrasive wire saw for rapid cutting. Wire saw can be useful when dehorning or for removal of dead fetus from the womb. Handles sold separately. 39'6" length.

Cow Lifters

Beam Hook
SI-3901

Beam Hook opens a full 10" to serve as a speedy, movable support for a sling or winch. Modern design features curved, pointed ends which easily grip overhead beam, tree limb, or pipe. The more pressure applied, the better the grip. The beam hook is a valuable companion piece to the Cow Lift. Load limit 1500 lbs.

Cow Lift
SI-3902

Economical and durable, the improved Nordic Cow Lift is simple to use. Lightweight and self-locking, the lift tightens with a simple hand crank. Useful for everything from post-parturient paresis, down cow, and prolapsed uterus to surgery restraint, generalized weakness, obturator paralysis or fracture repair. The self-locking rings will not slip outward as you jack them inward. Wt. 19 lbs.

Crank Handle f/ Cow Lift
SI-3903

Replacement Crank Handle for Cow Lift.

XL Daisy Heavy Duty Cow Lifter
SI-3904

New improved Daisy Lifter Cow Lift is a simple and inexpensive way to lift or move cows with a front end loader or bucket. Gentle lifting with support from the backside to the brisket, ensures that the cow is not

Front End Sling
SI-3905

Front End Sling is recommended for use with the Hip Lifter especially in cases where the cow cannot support her front quarters. Use of the Hip Lifter alone could result in tissue damage. Front End Sling is adjustable for

Rear Hiplift
SI-3906

Used with Power Pull or other lifting device to lift a cow that is down from milk fever, calving injury or a fall. Rubber-padded stirrups protect hip bones, and movable parts
